

Women in Remote Sensing, Photogrammetry and Spatial Information Science

6 June 2022, 2:30pm - 5:00pm (Paris time, GMT +2)

The XXIV International Society for Photogrammetry and Remote Sensing Congress
(ISPRS Congress 2022) - Forum Track

Organizers and Forum Moderators:

Dr. Marguerite Madden, ISPRS (mmadden@uga.edu)

Sheryl Rose Reyes, **Charmaine Cruz** and **Laxmi Thapa**, ISPRS Student Consortium
(sherylrose.reyes@gmail.com, cruzc@tcd.ie, thapalaxmi278@gmail.com)

Dr. Morgan Crowley, Ladies of Landsat (morgan.crowley@mail.mcgill.ca)

Short Description:

The forum is entitled, “Women in Remote Sensing, Photogrammetry and Spatial Information Science,” organised by the ISPRS Student Consortium and ISPRS, in partnership with the Ladies of Landsat. The forum aims to connect women in remote sensing, photogrammetry and spatial information science, within and outside ISPRS. The forum will also be an avenue for women to tell their stories and exchange ideas and experiences in the profession. Finally, this forum’s ultimate goal is to raise awareness about the current status of women in the profession and promote diversity and inclusiveness within ISPRS through the exchange of ideas and recommendations to the Society.

Objectives

1. To connect women in remote sensing, photogrammetry and spatial information science,
2. To provide a platform for women to tell their stories and exchange ideas and experiences in the profession,
3. To raise awareness about the current status of women in the profession and promote diversity and inclusiveness within ISPRS.

Question Bank for Panel Discussion

1. Tell us about your academic, scientific, and career journey to where you are now. (i.e. how did you end up in your field?)
2. Have you ever doubted staying in your field or your current path?
3. What kept you motivated to keep going?
4. How can ISPRS contribute to inclusivity and diversity?
5. What is the role of international organisations in promoting women and other underrepresented groups to the scientific community?
6. [unconscious bias]
7. What is your message to women and girls who are interested in pursuing remote sensing, photogrammetry and spatial information science?
